## **Re: Egypt's bans gold export; The Global Settlement Foundation Public Notice**

Dear Mr. Prime Minister,

This urgent letter, in our ongoing process of notice to Heads of State was prompted by the recent announcement by the new Minister for Trade and Industry of Egypt Dr. Samir Youssef Ali El-Sayyad who has brought unwelcome attention to your 'gold issue' by banning the removal of gold from Egypt<sup>1</sup>.

Wealth flourishes when people are free to travel and trade and to use lawful money that is gold. This has been so from ancient times and is the testimony of religious texts. Today's modern banking is an instrument of financial war and gold bullion itself can be a poisoned chalice – there is too little space here to go into details. I trust you will seriously examine the issues raised in the attached public notices.

The long term chart of oil in gold Globals<sup>2</sup> explains in one chart what takes a thousand words – there has been no real rise in the price of oil since the 1940s.

As you will discover from our enclosed public notice to all Heads of State and the enclosed copy of the recent notice sent to President Barack Obama of the United States, that there are serious questions about money and banking that have to be addressed by the people, for the people are the true sovereigns of the soil.

As recent events have confirmed, Mr. David Cameron, the British Prime Minister said in a meeting with you “... denying people their basic rights does not preserve stability, rather the reverse”<sup>3</sup>. We believe it makes no sense whatever to deny the basic unalienable right of the men and women of Egypt to do as they wish with their private property that is their gold, to

2 Included in the Public Notice to Heads of State and available in high resolution at [www.global-settlement.org/notice](http://www.global-settlement.org/notice)

3 <http://www.bbc.co.uk/news/uk-politics-12533520>

travel and trade and produce wealth.

This announced step to restrict gold is equivalent to creating the likeness of a prison camp for the people of the land in the ancient land of Egypt bound as they are by their passports and visa requirements already. Such an announcement turns your border police to divesting the people of their gold, as they did in Auschwitz, the most famous and notorious concentration camp of World War II.

We would like to see Egypt prosper and re-introduce lawful trade, by encouraging the development of a deliverable, voluntary gold standard. We are confident that these steps if undertaken, will result in a sustainable growth for your country over the long term.

As we suggested to Her Majesty the Queen of England, the opening of borders across the commonwealth and the introduction of a voluntary, deliverable gold standard will usher in an era of peace and prosperity that will counter the decay in the current systems of finance.

We would like to take this opportunity to invite you to initiate the steps necessary to bring the benefits of the Global Settlement Foundation to the people of Egypt.

I remain, a true friend of the People of Egypt.

Yours faithfully,

Joseph Ray Sundarsson
